PERMIT

This permit is granted solely to the operator named above, and is not transferrable.

Upon a change of operator, this permit is subject to revocation.

Upon a significant change in design or operation from that described by the Plan of Operation or the Report of Station or Disposal Site Information, this permit is subject to revocation, suspension, or modification.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal.

This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

The attached permit findings, conditions, prohibitions, and requirements are by this reference incorporated herein and made a part of this permit.

RE: FINAL PERMIT - #39-AA-0002
French Camp Landfill, San Joaquin County

Rec'd
OCT 6 1994

FINDINGS

- 1A. The French Camp Landfill is located at the intersection of Downing Avenue and Manthey Road, Stockton, CA in Section 22, T1N, R6E, MD & B. The City of Stockton is the owner and the legal operator of the facility. The contract operator is Gambi Enterprises, Inc.
- B. The French Camp Landfill is located on 72.0 acres and is a class III Landfill. The map of the facility is in Appendix A.
- C. The facility has a scale and scalehouse.
- D. Type of waste received:
 - a. Leaves and garden refuse
 - b. Construction/Demolition wastes
 - c. Clean fill dirt and Street Sweepings
 - d. Asphalt and concrete
- E. The landfill has a peak daily load of 330 tons.
- F. Used oil and used batteries are not accepted at this landfill.
- G. The facility has implemented a hazardous waste screening program in response to state laws which prohibit the handling of hazardous waste at the landfill. This program is designed to control the disposal of prohibited wastes at this landfill and to provide for proper removal and disposal of such wastes if detected. If hazardous or other unacceptable wastes are detected, the operator's site personnel will have the hauler remove the wastes. If the hauler has left the site, the operator will immediately cordon off the area. The operator will then immediately notify the Deputy Director of Public Works or the Solid Waste Manager who will be responsible for assessment, clean-up, transport, and disposal of the prohibited wastes. The hazardous waste will be removed by an approved hazardous waste hauler. A hazardous waste storage

locker is available on-site to safely store the hazardous waste until it can be hauled away. The incident and response will be recorded in the log of special occurrences. Mike Miller, Solid Waste Manager can be contacted at (209) 944-8826 and Phil Giambastiani, Landfill Manager can be contacted at (209) 465-8404 or (209) 481-4144 for emergencies and hazardous waste inquiries.

H. HOURS OF OPERATION

7:00 a.m. to 3:30 p.m. Monday - Friday, 5 days a week

Saturdays during the Leaf Season of November - February.

Service life expectancy is 12 years. The estimated closure date is 2004.

2. The following list of agencies and documents condition the operation and use of this facility:
 - a. The Report of Disposal Site Information dated February, 1993.
 - b. Periodic Site Review Report dated September, 1994.
 - c. Letter from Stockton City Fire Department dated August 17, 1989.
 - d. The agreement between the City of Stockton and the facility operator.
 - e. Expanded Initial Study IS 43-90 and Negative Declaration - French Camp Landfill.
 - f. Regional Water Quality Control Board's Waste Discharge Requirements #92-225 dated December 4, 1992.
 - g. Mitigation Monitoring Plan for the Negative Declaration dated June 26, 1993.
 - h. Preliminary Closure and Postclosure Plan dated June, 1994.
3. San Joaquin County, Environmental Health Division has made the following findings in accordance to PR 50000.5, and 50000:
 - a. The landfill is consistent with the Stockton City General Plan.
 - b. The facility is consistent with the County Solid Waste Management Plan dated March, 1986.
4. The design and operation of the facility is in compliance with state minimum standards for solid waste handling and disposal as determined by the Local Enforcement Agency (LEA) on July 20, 1994.

5. The facility shall be in compliance with flammable clearance provisions as required by the Stockton City Fire Department.
6. The Notice of Determination for this permit shall be subject to all applicable mitigation measures which are identified in the Negative Declaration as adopted by the City of Stockton Community Development Department. This complies with Section 21108 and/or 21152 of the Public Resources Code. The negative declaration (SCH 9002096) was adopted by the City of Stockton on June 24, 1991.

CONDITIONS

1. The facility must comply with state minimum standards for solid waste handling and disposal.
2. This facility must comply with all federal, state, and local requirements and enactments including all mitigation measures given in any certified environmental document filed pursuant to PRC, Section 21081.6.
3. Any additional information concerning this facility must be provided as required by the LEA.
4. The LEA at its discretion may require a landfill gas monitoring program and/or landfill gas control system.
5. The operator shall maintain a copy of the permit at the facility and it shall be available at all times.

PROHIBITIONS

- a. Disposal of residential refuse
- b. Disposal of hazardous wastes
- c. Disposal of liquids/slurries
- d. Disposal of septic tank pumping/sludge
- e. Disposal of dead animals
- f. Disposal of food processing wastes
- g. Disposal of medical wastes
- h. Scavenging
- i. Open burning
- j. Standing water on covered fills

SPECIFICATIONS

1. San Joaquin County Public Health Services, Environmental Health Division may

prohibit through this permit condition the handling or disposal of solid waste to protect the public health and safety, rehabilitate, or enhance the environment, or to mitigate adverse environmental impacts.

2. Any change that would cause the design or operation of the facility not to conform to the conditions of this permit may be considered a significant change and may require a permit revision.
3. This facility has a permitted capacity of 330 tons per day and shall not to receive more than this amount without first obtaining a revised permit.
4. A change in operator will require a new permit.
5. This revision of the solid waste permit supersedes the permit originally issued on February 1, 1983. This permit has been revised as a result of the 5 year permit review, and is intended to update the previous permit.

PROVISIONS

1. This permit is subject to review by the LEA and may be modified, suspended, or revoked for sufficient cause after a hearing.
2. Safety equipment shall be used for all employees that operate equipment at this landfill.
3. This facility shall comply with the monitoring and reporting program of the RWQCB.

SELF-MONITORING PROGRAM

The following items shall be monitored by the operator of the facility or his agent. Records including but not limited to the following items shall be kept and made available to the LEA at intervals specified:

1. Submit tonnage records on a monthly basis to the LEA.
2. Quantities and types of materials recycled and/or salvaged shall be reported to the LEA on a quarterly basis.
3. A log of special occurrences, i.e. fires, explosions, accidents, hazardous wastes, etc., shall be maintained and reported to the LEA on an annual basis.
4. Any other information concerning the landfill must be provided to the LEA upon request.
